

## All you need for effective web-based communication. GoWeb-Package for your research project.

We develop a compelling online portfolio to showcase your research: design and concept are **tailored to your research topic**. A user-friendly **content management system** (CMS) facilitates keeping your website up-to-date. A **password-protected intranet** offers a range of benefits that enhance seamless collaboration of your consortium such as a central storage for sharing confidential documents. It's an efficient and easy way to manage the scientific exchange within your research project.

**Price including intranet: 11,900 Euro (plus VAT)**

Without intranet: 10,400 Euro (plus VAT)

all services fully described on the back of the page

**You are planning a project? We are ready. Give us a challenge:**

## GoWeb-Package offers you:

### Professional looking online portfolio:

#### PROJECT LOGO

- » Development of a **logo** for the project and the **core elements** of its visual presentation (colour scheme and font).

#### WEB DESIGN

- » **Concept** and **design** of a professional website tailored to your requirements and needs.

#### CONTENTS

- » You provide the text. We edit the content, **program the website** and take care of the **technical implementation**.

### Efficient communication and implementation:

#### MAINTENANCE AND QUALITY CONTROL

- » Programming of the website using the **content management system WordPress**. It's user-friendly, reliable, and your website can be easily extended. We take care of the maintenance and quality control. It's a piece of cake.

#### INTRANET

- » Development of a private, **password-protected area** for you and your project partners. The intranet offers a range of features facilitating the management of the project and enhancing the collaboration. This includes a **central storage for documents** and a **project management tool** to monitor the progress of deliverables and milestones.

### Efficient coordination:

#### PROJECT MANAGEMENT

- » Full project management **until going live**. You deliver the content and we develop the design and technical implementation.
